

Dr FAN GANG

China Economist & Advisor
Monetary Policy Committee PBOC

One of China's most influential economists who brings insights into how China's economy is developing, and how the Chinese leadership views it's place in the world economy.

Dr FAN GANG

China's Economic & Political Relationships in the World

Fan Gang is a highly respected expert in the field of macroeconomics and of long-term development, international trade and currency issues.

He is a leading authority on China's foreign relations and its regional integration within Asia and is an Advisor on the Monetary Policy Committee of the People's Bank of China. His remarks are closely followed for clues about how Chinese leaders are thinking about the global economy.

His insights and interpretation of economic developments such as topics as China's financial risk and financial systems reform, foreign exchange regimes and revaluation, China's economic reform and globalisation.

Dr FAN GANG
