

Vito Di Bari

Futurist, keynote speaker, and author

Speaker on Artificial Intelligence & Emerging Technologies

A renowned futurist, innovation strategist, and inspirational keynote speaker, and a leading authority on innovation, technology, and futuristic issues

Professional experience

- Based in Miami Florida and Milan, Vito speaks at scores of conferences and conventions around the world or acts as discussion chairman. He has a global reputation for excellence and is celebrated for his captivating and entertaining presentations that leave audiences enthralled.
- Vito is the only keynote speaker who has given a TEDx Talk in five world continents. An expert in innovation, technology, and futuristic issues, Vito engages and captivates audiences with his entertaining, knowledgeable, and energetic presentations. He makes complex topics accessible and relevant, inspiring audiences to think about how technology will shape our lives, businesses, and the world around us.
- A former professor of Project Design and Management of Innovation at both the Polytechnic University and Bocconi University in Milan, Vito brings a wealth of academic and practical experience to the stage.
- He served as the Executive Director for the IMI Institute of UNESCO in Paris and was appointed as the Innovation Designer for the World Fair Expo 2015 in Milan.
- In 2001, he founded Next Media Lab, an international cutting-edge research laboratory, where he currently serves as CEO. He also founded Di Bari & Associates, a design studio creating cutting-edge artistic urban installations.
- Vito Di Bari is not only an acclaimed speaker but also an accredited author who has published numerous works on innovative theories and contributes to prestigious magazines such as WIRED and Harvard Business Review. He has also appeared as a host for television's Discovery Channel and the Italian broadcasting network Italia 1.
- Vito delivers impactful messages with a view of the near and medium-term future, highlighting how to innovate and stay ahead of the market. He looks at mega trends and scenarios in a rapidly changing world and advises clients on the influence of innovation on various industries, the role of technology in decision-making, and its impact on businesses and lives.
